

US BIOSERVICES SPECIALTY PHARMACY

Each year, US Bioservices supports thousands of patients nationwide in obtaining specialized medication and services for treatment of chronic and complex diseases. Our Pathpoint patient care program was specially designed to make it easier for you to begin therapy and receive the support you need throughout, to stay with therapy for the best results possible.

BENEFITS OF THE PATHPOINT PATIENT CARE PROGRAM

Our Pathpoint patient care team provides compassionate therapy coordination.

- Access to specialty medications
- One-on-one attention from a disease specific care team
- Prompt and confidential delivery
- Ability to track and refill orders through our MyPathpoint Patient Portal

PATIENT ADVOCACY SERVICES

US Bioservices' insurance counselors help you navigate through your insurance benefits.

- Complete insurance eligibility review
- Prior authorization and appeal management
- Accepting Medicare Part D, Medicaid and many commercial plans
- Financial assistance program guidance

ONGOING CLINICAL SUPPORT

From help administering your medication to education about dosage and side effects, our licensed clinical staff is available day or night to give you the support you need during your therapy.

- 24/7 on-call clinical support
- Drug and disease education
- Side effect management
- Injection training
- Compliance calls
- Infusion nursing and care management

We're here to help make your therapy successful. The medications your physician selects for your therapy process can only work their best if they are taken properly. We offer support and resources you can turn to for answers, and make it simple to place refill orders.

We understand that being a patient is challenging, but we're here to make it as easy on you as possible.
